

Breakfast Seminar Sustainable Construction for Housing

**Thursday 21 March, 8am – 10am
Hilton Hotel, Strathclyde Business Park**

As we are all aware **sustainability is an important part of any construction business**. It is therefore important to utilise resources in an efficient way and to minimise environmental impacts created by the processes we use to complete our works and the way materials are sourced.

Are you looking for ways to make future housing sites more SUSTAINABLE whilst at the same time potentially REDUCING COSTS?

If so, why not join us for our breakfast seminar to hear about how we can assist. An overview is shown below:

8:00am

Registration, tea, coffee, morning rolls and networking.

8:30am

Presentation by Ground Developments: utilising ground improvement techniques to minimise offsite disposal of soils and import of aggregates.

9:15am

Question & answer session.

9:30am

Tea, coffee and networking.

10:00am

Close.

We hope that you can join us for what we believe will be a useful and enjoyable morning.

To book please email paula@grounddevelopments.co.uk
